

Typical Cove Joint Profile

Plastic formliners MUST be stored at a temperature range of 55° to 85° Fahrenheit. Failure to do so will result in permanent distortion to these plastic formliners and will warrant them both unusable and destroyed. Therefore, AP Thermoforming will NOT assume any liability for damaged formliners caused from improper storage

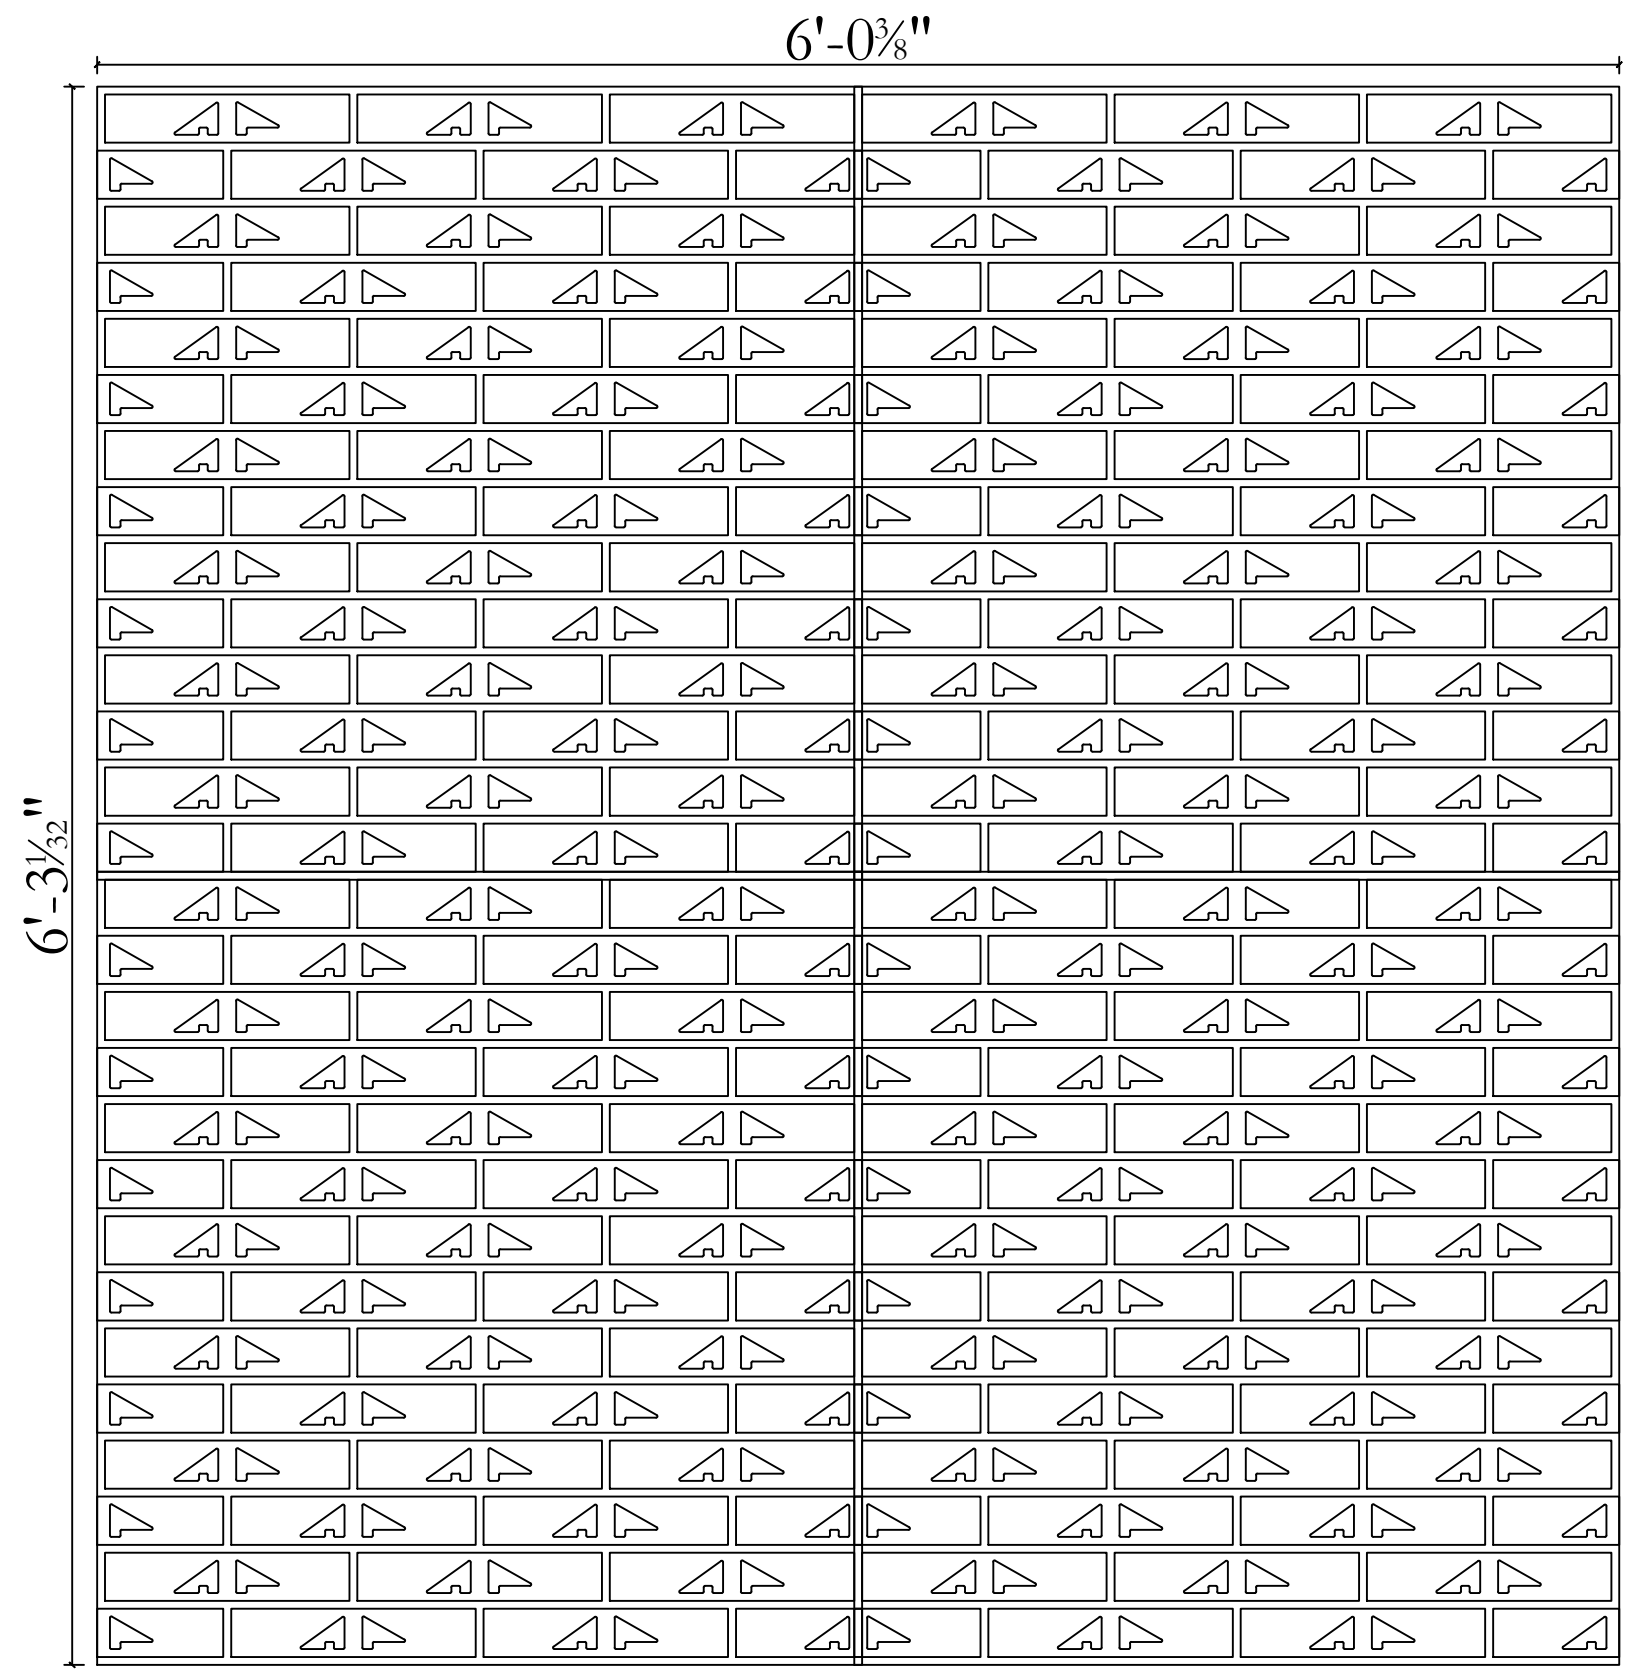

ITEM # 305806

1035 Little Gap Highway
 Palmerton PA, 18071
